SUMMARY

Full Stack Developer with hands-on experience in building web applications using ReactJS and Django. Completed internships working on real-time projects, including frontend development, API integration, and deployment. Quick learner with a strong interest in developing scalable and user-friendly applications.

INTERNSHIP EXPERIENCE

Full Stack Developer Intern

Feb 2026 – Present

Spine Codes Solutions, Malappuram

- Developed real-time web applications using ReactJS, Node.js, and Firebase.
- Built dynamic and responsive frontend components and integrated them with backend services.
- Worked on live production projects, handling deployment and performance optimization.
- Collaborated with team members to implement scalable and maintainable solutions.

Full Stack Developer Intern

May 2025 – Aug 2025

Tegrand Infotech, Kuttippuram

- Built responsive user interfaces using HTML, CSS, Tailwind CSS, JavaScript, and ReactJS.
- Developed RESTful APIs and backend logic using Django.
- Participated in Agile development cycles including sprint planning and daily stand-ups.
- Used Git and GitHub for version control and team collaboration.

PROJECTS

FOODZ — Food Ordering Platform

- Developed a responsive food ordering and checkout system with dynamic promo-code integration.
- Implemented frontend using ReactJS and backend APIs for handling orders and pricing logic.
- Improved user experience with optimized UI and seamless checkout flow.

JOBZ — Job Portal Application

- Built a full-featured job portal with job search and user profile management.
- Implemented secure authentication and role-based access using Django.
- Designed scalable backend APIs and integrated dynamic frontend components.

WAREHOUSE MANAGEMENT SYSTEM

- Developed an inventory management system for tracking stock levels, orders, and product movement.
- Implemented role-based access and efficient data handling for real-time updates.
- Improved operational efficiency by organizing and automating warehouse workflows.

ACE-TECH GLOBAL — Business Website

- Developed and deployed a static business website with responsive design.

- Optimized performance and hosted the application using Firebase Hosting.
- Ensured cross-device compatibility and fast load times.

RHOPE / SOCIAL EMPOWERMENT TRUST — Live Website

- Contributed to a live production website by assisting in frontend development.
- Supported deployment and optimization for better performance and accessibility.
- Collaborated with team members to deliver a functional and user-friendly interface.

SMART EV CHARGING STATION FINDER

- Designed a system for real-time EV charging slot booking and availability tracking.
- Integrated location-based services for nearby station discovery.
- Focused on smart scheduling logic to optimize charging station usage.

SKILLS

Languages	Python, JavaScript, SQL
Frontend	HTML, CSS, Tailwind CSS, Bootstrap, ReactJS
Backend	Django, Django REST Framework, Node.js
Database	Supabase, Firebase
Tools	Git, GitHub, REST APIs, Firebase
Soft Skills	Communication, Problem-solving, Teamwork

EDUCATION

Full Stack Development Certification Tegrand Infotech, Kuttippuram	May 2025 – Aug 2025
B.Tech in Computer Science Engineering MGM College of Engineering and Pharmaceutical Sciences, Valanchery	Dec 2021 – May 2025

LANGUAGES

English – Read, Write, Speak	Malayalam – Native	Tamil – Speak	Hindi – Speak
------------------------------	--------------------	---------------	---------------

INTERESTS

Sports, E-Sports, Origami, Photography, Gaming
